The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).					
Status

DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 112

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it is unclear as to what "weight" the multiplicand is multiplying.

Also it is unclear as to how the recoding of a multiplier takes place.

Allowable Subject Matter

Claims 4-20 are allowed.

The prior art fails to disclose an apparatus for higher radix binary multiplication of a multiplicand by a multiplier to form a resultant product, the apparatus comprising means for generating a partial product of each secondary digit and the multiplicand, the partial products for the respective secondary digits collectively comprising a first plurality of partial products; and partitioning the first plurality of partial products into a plurality of parts and reducing each part to respective values; and generating a second plurality of partial products, each partial product of the second plurality of partial products comprising the product of a respective value of a respective part and of a term dependent on the respective part and the secondary radix; and for reducing the second plurality of partial products to the resultant product; nor does the prior art disclose the plurality of Booth 4 partial product generator or a plurality of Booth 8 partial product generator selector.

Application/Control Number: 10/080,707

Art Unit: 3661

Response to Arguments

Applicant's arguments with respect to claims 1, 4-20 have been considered but

are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Gertrude Arthur-Jeanglaude whose telephone number is

(571) 272-6954. The examiner can normally be reached on Monday-Friday from 8:30

a.m. to 6:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Thomas Black can be reached on (571) 272-6956. The fax phone number

for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
